

## Farnham School, Tag Rugby County Champions, win again

Harlequins Head Coach Brian Holland has been working with Year 6 pupils from Waverley Abbey for the past six weeks giving the children top class coaching in the game of rugby. He then invited some of the children to take part in a festival played on the "The Stoop," home of the Harlequins Rugby team between other Middlesex Schools.

Headmaster David Jeffs said; "The opportunity for some of our rugby squad to play on a professional pitch was the chance of a lifetime, it just had to be done. It enabled the team to finish off an amazing season in style." Once again Waverley displayed a thrilling type of game with amazing ball handling and support skills which saw the team win the final 5-3 against New Malden School.

A month earlier the team had won a high quality competition to become Surrey Champions beating the opposition by one try in the final. They then went on to compete in the South East England Regional Finals in Maidstone, where they narrowly failed to qualify for the National Finals.

To add to the rugby prowess of the school twelve Year 3 and 4 children, who had been training hard for the Surrey Youth Games, played as part of the Waverley Borough team. They kept up the school's reputation for excellence by reaching the finals before losing by one point.
